# Introducing Our New Photo Upload Feature

For most photos, the application will interpret your photo and upload with the correct aspect ratio and rotation.

If not…

Introducing Our New Photo Upload Feature

Step #1:
Choose your photo file from your desktop or mobile devise to upload

Step #2:
Use photo "Rotate" feature to correctly display your photo

Step #3:
Use the photo "Portrait / Landscape" feature to display your photo to preferred orientation

Step #4:
Use the "Display frame" to center your photo
